Paying attention

“In a turbulent and distracted world it is easy to lose the spirit of attention that gives depth and meaning to our lives. Meditation restores us to a vision and relationship to the world, others and to God.” Fr Laurence OSB

Laurence Freeman OSB is a Benedictine monk and Director of the World Community for Christian Mediation an ecumenical, contemplative community. He is an international speaker, author and retreat leader. He is active in inter-religious dialogue and is committed to the restoration of the contemplative dimension in the Church and in society today.

Fr Laurence will lead us in reflection and meditation.

Please bring a packed lunch on Thursday.

Refreshments provided on both days
